A&E and Maternity to Close At King George Hospital

Despite a massive local campaign and thousands of signatures from local residents the Tory-led government has decided to axe key services at King George Hospital .

A&E and Maternity services will be closed and move to Queens Hospital which is unable to cope with demand.

This is a disgraceful decision which will put lives at risk.

At the general election, the Tories promised to 'protect key services at King George Hospital' - but Tory Health Secretary Andrew Lansley 'fully supports' these cuts.

Your Clementswood Labour Councillors have fought to save King George Hospital. They say-

' This is a massive blow for the area which will put lives at risk'

Mike Gapes M.P. said 'I have fought these ill conceived proposals from day 1 and can't believe that the Tory-led government have done this to Ilford. This decision is dangerous and ignores the views of local people who will rightly feel angry and betrayed'
